next generation marble tiles

*Surfaces That Become Furnishings
For An Infinite Number of Solutions
Marbo Crust releases new dimensions
for modern architecture since it blends
low thicknesses with large formats
promising high practical performance, a
lesser load on the floors and an
aesthetic excellence never seen before!
There's no sealing or concern about
staining, scratching or etching.*

10mm thickness

Resemblance of our tiles to natural stones is absolutely delightful.

"The marble type granular or vein like structure is not limited to surface, but goes to the depth of the total cross section of tile."

it can be ground or cut or chamfered and yet the granular beauty will unveil its glory to the fullest.
